YOUR PRIVATE TERMINAL

Private flights at Milan Malpensa Airport (Milano Prime business aviation terminal) are normally handled through Milano Prime business and general aviation terminal, with a dedicated general aviation..., about 21.6 nautical miles north-west of Milan. Where there is a private lounge, your car drops you at the door and the crew meet you there. At some airports, and whenever border control requires it, passengers go through the main terminal instead — we tell you exactly where to go before you travel.

There is no airline-style check-in. For international flights we confirm the customs arrangements with the handling agent when you book. Milan's main intercontinental airport, north-west of the city. Private flights are handled by the Milano Prime business aviation terminal, separate from the passenger terminals.
